NEW PE OIL COX

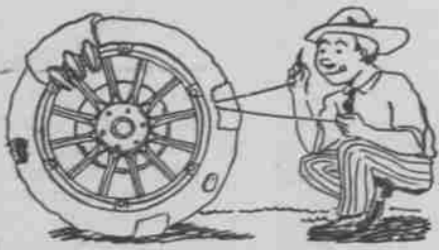

Why not cook with
a modern oil stove this sum
mer and be comfortable
Bakes, broils, roasts, toast
More efficient than your wood
or coal stove, and costs less to
operate.

Better cooking because the
long blue chimneys give stead
ier, more evenly distributed
heat, under perfect control—
like gas. No smoke or smell.
In 1, 2, 3 and 4-burner sizes,
ovens separate. Also cabinet
models with Fireless Cooking
Ovens.

Ask your dealer today.

dered out.

Market for Surplus Horses

Mr. Geo. H. Barney of Wil-
liams has a contract to buy cav-
alry and artillery horses for the
French government. Mr. Barney
will work under T. M. Ward,
special agent, authorized to buy
horses extensively for the French
army.

The horses which Mr. Barney
will buy must measure at least
15 hands and must not be under
5 or over 10 years old. The
prices which Mr. Barney is au-
thorized to pay will range from
\$60 to \$150 depending on the
quality of the horses.

Mr. Barney will operate thru-
out northern Arizona and is
ready to meet horse owners at
any time.—Williams News.

Boil Down The News

Who has read the two plat-
forms of the republican parties?
Not one man in a thousand. The
democratic platform while brief,
will not be read in full by one
man in ten. Even the 4000 word
note to Carranza might have
been boiled down to a ten-word
message. People grow tired of
voluminous repetitions and ar-
guments. When Carranza said:
"Get out we'll throw you," Wil-
son might have replied: "Try
it and you'll start something." That
would have covered the entire
note. The fight will be al-
most as brief.—Phoenix Mes-
senger.

Making the Dirt Fly

Work on the reconstruction of
the Udall reservoir, on the river
below the Meadows has com-
menced.

John H. and Gilbert Udall
have the contract for building
the above named dam and
their teams left yesterday and
are now at work. This is one
move that looks good to the peo-
ple of Apache county and speaks
that all have not lost faith in the
outcome of the country. With
the reconstructing of this dam
the many fertile acres of Greer
valley will again begin to yield
its enormous crops and the con-
ditions in Apache county will
again begin to be prosperous.

The dam will be built to its
former height and at the old
site.

Report are out that it will not
be long before work will also
commence on the Lyman reser-
voir and the fertile acres of
bench land that was just being
brought under cultivation will
again begin to put on a coat of
green and the fine orchards that
were just planted will yet be-
come fruitful. There is a bright
future for Apache county.—St.
Johns Herald.

Nuptials

A pretty home wedding was
solemnized at the home of Mr.
and Mrs. J. S. Burk at Eager
Tuesday last at 2 p. m., uniting
in marriage Miss Daphne Burk
to Mr. Elmer A. Mineer. Only
the immediate relatives and a
few close personal friends were
witnesses to the simple wedding
service performed by Bp. Joseph
Udall, of the L. D. S. church. In
honor of this important event in
the life of her daughter Mrs.
Burk had her home tastefully
decorated with flowers, and im-
mediately following the service
served an elaborate supper to
assembled guests. Mr. and Mrs.
Mineer will make their home in
Holbrook where Mr. Mineer has
employment. The announcement
of the marriage of these young
people is not a surprise, as it has
been anticipated for several
months but the exact date was
kept a secret. Miss Burk is one
of Eager's popular young ladies,
Mr. Mineer is one of St. Johns'
popular young men and is held
in high esteem by all who enjoy
the pleasure of his acquaintance
as a man of sterling worth and
princely character. The congratu-
lations and best wishes of all
their friends will be showered
upon them.—St. Johns Herald,
June 22.

National Forest Notes

It is reported that the super-
visor of the Coconino National
Forest at Flagstaff has installed
a fire lookout station on the sum-
mit of the San Francisco Peaks.
The forest guard in charge en-
joys the distinction of being the
"highest up" man in the south-
west, the peaks having an eleva-
tion of 13,000 feet. The use of
the peaks as a lookout station is
said to be in the nature of an ex-
periment to determine whether
the mists and fogs, which are
more or less prevalent around
the summit, prevent its use as a
vantage point for detecting forest
fires.

Forest service pulp experts
predict a gradual migration of
the paper pulp industry to the
western states. They point out
that large supplies of pulp wood
and mill waste are available on
the National forests, at prices
materially below the present
prices paid in the east. More
important still is the fact that an
abundance of cheap water power
is generally to be had. It is
thought that the low price of
material and power will more
than offset the higher freight
rates on the product to the eastern
markets.

Many of the National forests
of the southwest contain large
quantities of spruce and aspen
suitable for pulp wood, notably
the Carson, Santa Fe and Gila
forests in New Mexico and the
Apache forest in Arizona.

Forest Reserve Wiped Out

The Dixie national forest in
Mohave county is practically
wiped out by an executive order,
received at the United States
land office recently, opening
twenty-two townships of reser-
ved land to entry and settlement.
The Dixie lies in two sections
just north of the Grand Canyon
in Arizona, and also comprises
certain areas in Nevada and
Utah.

The orders opens the districts
to settlement on and after July
13 and for entry on and after
August 14. The land is said to
be good for grazing and is partly
mineral.

The Old Age Pensions Law

The supreme court in holding
the Old Age and Mothers' Pen-
sion law to be invalid was left
nothing else to do by the men
who prepared the initiated bill.
As it was drawn it made com-
pliance with its terms impossible
and also, as it was drawn, it was
contrary to public policy if it had
been effective. It left orphans
and a certain class of indigents
without aid and provided aid for
a certain class of widows, wives
and children who might be in no
need of assistance. It failed to
conform in form to a constitu-
tional requirement regarding its
title.—Arizona Republican.

Bull Moose Back

Deserted by the one man
about whose personality their
party was built, it was inevitable
that progressive organization
should disintegrate and its mem-
bers return to their former po-
litical affiliations. The remark-
able thing is that so many vot-
ers should have followed the
leadership of a single individual
for so long a time in an indepen-
dent movement which involved
nothing new in the way of a set
of political principles.—Albu-
querque Journal.

Preston Will Appeal Case

Tom Preston who was convict-
ed last week of introducing li-
quor illegally into Arizona by a
jury, was given a sentence of
125 days and \$125 by Judge
Perkins Monday morning. The
time served during the time of
arrest and up to the trial is to be
deducted from his jail sentence,
with the option of serving all of
the time and fine out at the
rate of \$1 per day.

His attorney has given notice
of an appeal of the case.—Flag-
staff Sun.

Preston served a jail sentence
in Holbrook a few months ago,
after having been convicted of
bringing liquor into the state.

Use For Fort

An effort is being made to get
the government to take some ac-
tion to bring Fort Wingate into
use again. A telegram was sent
Thursday to Senators Catron and
Fall requesting them to bring in-
fluence to bear towards getting
Fort Wingate named as one of
the places for a recruiting sta-
tion or drilling grounds for
newly recruited soldiers. At-
tention was called to the fact
that Wingate has ample drilling
grounds, barracks and rifle
range.—Gallup Herald.

Biliousness and Stomach Trouble

"Two years ago I suffered from
frequent attacks of stomach
trouble and biliousness," writes
Miss Emma Verbyrke, Lima,
Ohio. "I could eat very little
food that agreed with me and I
became so dizzy and sick at my
stomach at times that I had to
take hold of something to keep
from falling. Seeing Chamber-
lain's tablets advertised I decided
to try them. I improved rapid-
ly." Obtainable everywhere. Ad.

High Priced Cattle

W. S. Johnson, an arrival
Monday from Walnut creek, re-
ported a cattle cleanup of over
800 head, purchased by W. G.
Wilkins, of Brawley, Calif., and
shipped a few days ago from
Seligman. The sellers were Mr.
Johnson, Clarence Denny and
Elmer Plummer, and the prices
paid per head were \$33 for one-
year-olds, \$40 for twos, and \$50
for threes, the highest ever
known for a range product in
this country.—Journal Miner.
